**NEW**

## Numeric Displays with Field Bus Interfaces

The new range of industrial *mipan* numeric displays, with a choice of Field Bus, serial or analogue interfaces, is now available in the UK from Metrix Electronics.

They feature 4- or 6-digit digital LED displays with a choice of 10mm, 13mm, 20mm or 30mm high digits. The choice of input formats is designed for use in Profibus-DP, InterBus, AS interface, RS-232/RS-485 serial or analogue (e.g. 4...20mA or 0...±10V) process control systems.

Compact panel mounting metal housings in sizes from 48x24mm to 144x48mm are front sealed to IP65 standards, and they only require a 24V DC power supply.
