NEW

Enhanced Test & Measuring Instrument Range for 2008

A significantly enlarged range of handheld and bench style test instruments is now available from Metrix Electronics Ltd covering industrial, laboratory, service and training applications. This enhanced range is detailed in the new 2008 Product Guide, which combines the key products from the B+K Precision* and Sefram* instrument ranges

The individual sections in the new guide focus on the following product groups: function & arbitrary generators, frequency counters, power supplies, electronic loads, oscilloscopes, LCR meters, spectrum analysers, multimeters, data loggers, recorders, process calibrators, clamp-on meters, electrical testers, environmental testers, TV field strength meters, network cable testers and accessories.

New products for 2008 include: DDS function generators, high-power and programmable power supplies, digital oscilloscopes, spectrum analysers with tracking generators and leakage current clamp meters.

***** ENDS *****

** Note for Editors:*

Metrix Electronics Ltd is the B+K Precision/Sefram agent for the UK and Ireland.
