

2011 Product Overview

Display Systems and Industrial Communications

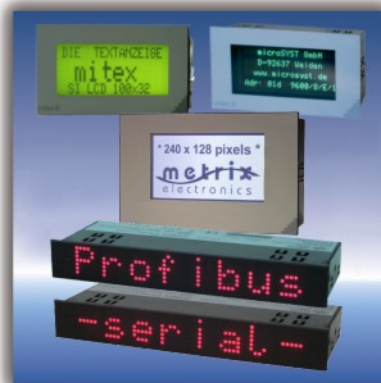

Numeric Displays

4 to 6 digits with choice of interfaces

Graphic/Text Displays

Fieldbus or serial interfaces

'Pick-to-Light' Modules

'Paperless' warehouse solutions

Large Numeric Displays

Digit heights 60mm to 250mm

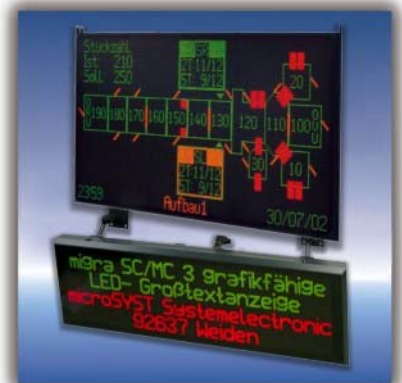

Customised Large Displays

Tailored to your specific requirements

Large Graphic Displays

Up to 3m x 2m, choice of interfaces

Industrial Interfaces

Fieldbus or Ethernet to/from serial

Industrial Control Panels

Profibus-DP, serial or PS-2 interfaces

Multifunction Clock Display

Time, date, temperature & humidity

Industrial Panel Instrumentation

Analogue Panel Meters
Patented EN 61010-1:2001 safety

Electronic Bargraph Meters
Modern indicator/controllers

Digital Panel Meters
Extensive range of models

Indicator/Controllers
Adjustable alarm relay set points

Thermal Panel Printers
Print text, graphics and barcodes

Multi-Channel Meter Controllers
96 & 144mm, up to 72 inputs & outputs

Compact Data Recorders
Up to 8 channels

Intelligent Message Displays
With text memory or 'slave' versions

Multi-function Power Meters
3-phase with recording memory option

Electrical & Process Transducers
Power, frequency, temperature . . .

Accessories
Shunts, CTs, Switches and Indicators

Probes
Differential, Scopes and DMMs

Portable Test and Measuring Instruments

Multimeters

Hand-held and bench ranges

Clamp-on Multimeters

For AC, DC and power applications

Electrical Installation Testers

For all electrical installation testing

Multi-channel Recorders

Thermal and 'paperless' versions

Miniature Data Loggers

Temperature, humidity & DC voltage

Environmental Testers

°C, RH, lux, dB, pH, CO & m/sec

Bench Power Supplies

Extensive range up to 1440W

Electronic Loads

Models up to 5000W

Function/Arbitrary Generators

Models up to 120MHz

Oscilloscopes

Digital and analogue up to 350MHz

Frequency Counters

Models up to 3.5GHz

LCR & Capacitance Meters

Hand-held and bench models

Portable Test and Measuring Instruments

Portable Spectrum Analysers
2.0GHz, 3.3GHz and 8.5GHz models

TV Field Strength Meters
For satellite, terrestrial & cable

Process Calibrators
Simulate/check thermocouples & loops

Appliance Safety Testers
VDE 0701/0702/0751 standards

Stix® Multimeters
Rugged tool bag size electrical testers

Stix® Thermometers
Thermocouple & infrared types

Stix® Thermo-Hygro Meters
Temperature and humidity combined

Stix® Light Meters
Compact digital lux meters

Accessories & Probes
For test and measuring instruments
