Display Systems and Industrial Communications	Mark box "X"
Numeric Displays 4 to 24 digits with choice of interfaces	
Graphic/Text Displays Field bus or serial interfaces	
'Pick-to-Light' Modules 'Paperless' warehouse solutions	
Large Numeric Displays Digit heights 60mm to 250mm	
Customised Large Displays Tailored to your specific requirements	
Large Graphic Displays Up to 3m x2m, choice of interfaces	
Industrial Interfaces Field bus or Ethernet to/from serial	
Industrial Keyboards Profibus-DP or serial interface	
Touch Screen Displays Field bus or serial interfaces	
Industrial Panel Instrumentation	Mark box "X"
Analogue Panel Meters Patented EN 61010-1:2001 safety standards	
Electronic Bargraph Meters Modern indicator/controllers	
Digital Panel Meters Extensive range of models	
Indicator/Controllers Adjustable alarm relay set points	
Thermal Panel Printers Print text, graphics and barcodes	
Multi-function Power Meters Profibus-DP or RS232 options	
Electrical & Process Transducers Power, frequency, temperature . . .	
Intelligent Message Displays With text memory or 'slave' versions	
Compact Data Recorders Up to 8 process input channels	
Accessories Shunts, CTs, Switches and Indicators	
Probes Differential, Scopes and DMMs	

Portable Test and Measuring Instruments	Mark box "X"
Multimeters Hand-held and bench ranges	
Clamp-on Multimeters For AC, DC and power applications	
Electrical Testers For all electrical installation testing	
Multi-channel Recorders Thermal and 'paperless' versions	
Miniature Data Loggers Temperature, humidity & DC voltage	
Environmental Testers °C, RH, lux, dB, pH, CO & m/sec	
Bench Power Supplies Extensive range up to 1200W	
Electronic Loads Models up to 600W	
Function / Arbitrary Generators Models up to 50MHz	
Oscilloscopes Digital and analogue families	
Frequency Counters Models up to 3.5GHz	
LCR & Capacitance Meters Hand-held and bench models	
Portable Spectrum Analysers 3.3GHz and 8.5GHz models	
TV Field Strength Meters Digital/analogue; satellite, terrestrial & cable	
Process Calibrators Simulate/check thermocouples & loops	
Network Cable Testers For Ethernet and Token Ring	
Appliance Safety Testers VDE 0701/0702/0751 standards	
Stix® Thermometers Thermocouple & infrared types	
Stix® Multimeters Rugged tool bag size electrical testers	
Stix® Light Meters Compact digital lux meters	
Stix® Thermo-Hygro Meters Temperature and humidity combined
