## LARGE Displays, and more . . . .

Metrix Electronics Ltd is the new exclusive UK agent for microSYST Systemelectronic GmbH. The range of 'microSYST' products now available from Metrix Electronics Ltd include:-

- Migam – LARGE-format numeric LED displays
- Migra – graphics / text compatible LARGE-format LED displays
- Mipan – numeric panel-mount LED displays
- Mitex – graphics compatible / alphanumeric LCD displays
- Mitouch – operator touch screens
- Mitas – operator keyboards
- Miface – Industrial interfaces for Profibus, Interbus, CANbus & Ethernet
- Mipick – Pick-to-light order picking solutions

Peter Rummer M.D. says; "microSYST have established an excellent reputation over the last 15 years as specialists in state-of-the-art display systems and industrial interfaces. As the microSYST products are primarily aimed at industrial automation and process control applications, they perfectly complement our ranges of industrial panel mounted instruments manufactured by Gossen, Müller & Weigert."
